

A photograph of a diverse group of students in a classroom. In the foreground, a young man with dark hair and a beard is looking down at his work. Next to him, another young man with glasses is also looking down. In the background, a young woman with long dark hair is writing, and a young woman wearing a black hijab is looking towards the camera with a slight smile. They are all seated at desks with papers and pens. The background shows a whiteboard with some colorful sticky notes.

“Students make outstanding progress in the school’s inclusive Sixth Form”

- Ofsted 2013

Connect with Learning

Welcome to High Storrs Sixth Form. You're going to love it. We do and it's an opinion shared by Ofsted. When you join our Sixth Form, you become part of a community that Ofsted has judged to be outstanding. A community that is thriving – from an academic, social and extra-curricular perspective.

We offer an extensive array of AS and A2 Level subjects and we work together with other local schools as part of the 'South West Learning Partnership' to give you the best chance to study the subjects that you want.

To complement our staff of enthusiastic and experienced teachers, we have a dedicated Sixth Form team to ensure our Sixth Form students have all the support and advice they need as they get used to the new challenges and intensive study that the Sixth Form entails.

All academic abilities are catered for – what we ask of you in return is to make the most of the support we offer you, demonstrate commitment, responsibility, a true passion for learning and a willingness to work hard. You will find life very different in the Sixth Form, meaning you have to be more self-disciplined but in return you will receive greater freedom and rewards.

“There is a great range of subjects on offer, taught by excellent teachers. I felt I had a lot of choice when applying.”

Be Inspired

Our Sixth Form is committed to providing the highest standard of education and our students always rise to the challenge.

“High Storrs gives you a high standard of education in a great learning environment.”

We believe our inspirational academic success can be attributed to a combination of the great selection of subjects we offer which genuinely capture the imaginations of our students, our fantastic team of dedicated and enthusiastic teaching staff and the motivational environment in which our students learn.

Life in the Sixth Form isn't all about studying and we are pleased to be able to offer a broad programme of enrichment opportunities. Our stunning listed school building has been complemented by the opening of new buildings, and the facilities they have brought with them – including a sports hall and dance studio – form the perfect backdrop for extra-curricular activities.

Our refurbished school hall plays host to our theatrical productions. Sixth Form students enjoy getting involved with our shows which always make a real splash in the local community. Music is another passion shared by many of our students and, whatever genre you enjoy, there's a band to suit you.

Participate in one of our sporting activities. The school boasts some of the best students in the region in a variety of sports, as well as popular cricket, football and rugby teams.

We feel that nothing helps to broaden the horizons of our students like school trips. Our Government and Politics groups explore Westminster, for example, and our language students are given the opportunity to either visit or even work in a European country.

Our Alumni are blazing a trail for today's students with achievements in many different fields. We count a world championship squash player and successful television actors among our former students, demonstrating what can be achieved with encouragement of all round ability and special talents.

“Teaching is outstanding.”

- Ofsted 2013

“The wide range of visits and external experiences contribute to students’ rich extra- curricular experience in the Sixth Form.”

- Ofsted 2013

Express Yourself

Learners' personal and social development and well-being are of equal importance. Students make a very strong contribution to the well-being of the school community.

Our Sixth Form students share the same listed building and state-of-the-art new build with the main school so still remain at the heart of the High Storrs family. Our house system, which we consider to be a 'community within a community', sees a selection of students from each year in the school being placed in the same house. The Sixth Form plays an important part of this system and we are keen that its members are good role models for the younger students.

Three quarters of the Sixth Form is made up of students who have progressed through High Storrs School and we are really pleased that the rest of the population is made up of representatives of other schools in Sheffield and beyond. The feedback from new starters is that they are made to feel very welcome and we feel they add an important new dimension to our community.

When it comes to the end of their time here, students find that two years of hard work pays off with great rewards as the doors to university, further training or employment open for them. The world is at their feet and we send them out into it with a mindset to go further, work harder and be high achievers.

“I find A Levels challenging but I feel I can cope with them because the teachers are helpful and the environment is supportive and friendly.”

**“We’d love to meet you - please
get in touch to arrange a visit.”**
