

# How can I revise?

## Strategy 1 – Retrieval practice

### What does this look like in practice?

**Step 1** – Decide which area of a subject you're going to focus on. E.g., 'How are tropical rainforests managed?'

**Step 2** – Gather all your notes and materials on this topic.

**Step 3** – Review all these notes and design questions to test your understanding of the information.

**Step 4** – **Without access** to your notes, answer the questions you have set yourself. Try to recall as many answers as you can – record these somewhere so you can check your answers.

**Step 5** – **With your notes**, mark your answers. Keep a record of what you did know and what you could not remember. This will help you to focus your revision on areas where you remembered less.
